SS21 SUSTAINABILITY NOTES

ORGANIC COTTON

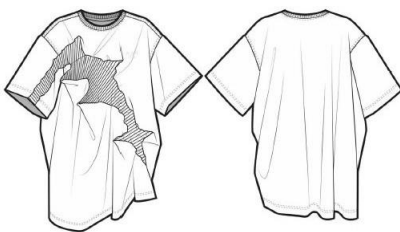

The overdyed organic cotton yarn used comes from organic crops. This means the cotton is not subject to pesticides, chemical fertilizers or genetically modified seeds.

RECYCLED POLYESTER

Recycled polyester uses PET as the raw material. This is the same material that is used in clear plastic water bottles and recycling it to create the fabric prevents it from going to landfill.

FSC CERTIFIED VISCOSE

The viscose used in these garments is FSC Certified.

The Forest Stewardship Council (FSC) is an international non-profit, multi-stakeholder organization established in 1993 to promote responsible management of the world's forests. The FSC does this by setting standards on forest products, along with certifying and labelling them as eco-friendly.

ECO PADDING

The padding used for the EVEREST cropped bomber is made of recycled PET bottles. Providing the highest quality and insulation with the lowest environmental impact. Every year 600 million bottles are transformed in wadding avoiding over 40 million kg of CO2 emission into the environment. To buy a garment with this wadding means making a conscious choice to protect the environment.

GLOBAL RECYCLED STANDARD

The Global Recycled Standard is intended for use with any product that contains at least 20% Recycled Material. Each stage of production is required to be certified, beginning at the recycling stage and ending at the last seller in the final business-to-business transaction.

ORGANIC COTTON

Organic cotton is grown without harmful chemicals, leaving the soil, air and water free from contaminants that cause harm. Organic cotton produces around 46% less CO2 emissions compared to conventional cotton. It also uses far less water to grow since organic cotton growers typically utilize rain far more than irrigation.

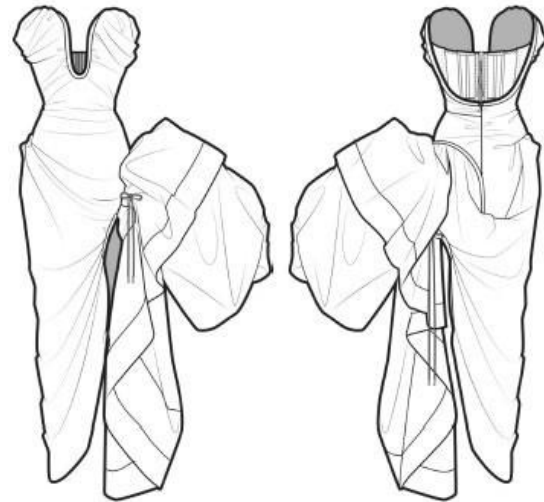

RECYCLED POLYESTER

All the polyester from the collection is sustainable. The use of recycled fabrics rather than non-renewable raw materials means making an active and effective contribution towards reducing environmental impact and preserving nature.
